## **Change History**

This section records the history of all changes to this document.

EGF Version	Document Version	Date	Description of Change
1.0	1.1	August 30, 2023	Clearly indicated 'or' for requirements in section 6.1 Qualifications;  updated the '10.1' and '10.2' to '9.1' and '9.2' in section 6.2 Credential;  clarified section headings in sections 6.3, 6.4, 6.5 (Legal Entity, Legal Entity Authorized Representative (LAR) and ECR Person Identity Verification) and 6.6 Issuance to indicate requirements for issuance by a QVI and issuance by a Legal Entity;
			added the option for Legal Entity Authorized Representatives (LARs) to use of Third-Party Services for Identity Assurance in section 6.5;  clarified section headings in section 6.7 Revocation to indicate requirements for revocation by a QVI and revocation by a Legal Entity;  updated section 9 Credential Definition to clarify the requirement for the 'personLegalName' field value.

2.0	1.2	December 15, 2023	Updated specification references and links in section 7.2 Privacy Considerations;  updated GLEIF-IT hosted link to schema in section 9.1.1., Schema;  updated inclusion of Issuance and Presentation (IPEX) protocol within the Authentic Chained Data Container (ACDC) specification in section 9.1.4, Schema; added credential usage paragraph in section 9.1.5., Schema.
2.0	1.3	April 10, 2024	Added requirement not to use video filters and avatars during OOBI sessions in sections 6.5.1.1.h., 6.5.1.2.a.ii., 6.5.2.2.b., 6.5.2.2.f.ii., 6.5.3.2.c. and ECR Person Identity Verification; corrected omission of the step of the sharing of the Legal Entity Autonomic Identifier (AID) in section 6.5.1.1.h.i., ECR Person Identity Verification; corrected omission of the step of the sharing of the QVI Autonomic Identifier (AID) in sections 6.5.1.2.b.i. and 6.5.2.2.f.iii.,,ECR Person Identity Verification.
3.0	1.4	TBD	Added option for Identity Assurance to be performed by the presentation of digital identity credentials from specific digital identity schemes in sections 6.5.1.c., 6.2.5.f. and 6.5.3.b ECR Person Identity Verification;  added requirement not to display on-screen (share) passcodes and passwords during OOBI sessions in sections 6.5.1.1.i., 6.5.1.2.a.iii., 6.5.2.2.c., 6.5.2.2.f.iii., 6.5.3.2.d. and ECR Person Identity Verification.

## 1 Introduction

- 2 This is a Controlled Document of the verifiable LEI (vLEI) Ecosystem Governance Framework (vLEI
- 3 Ecosystem Governance Framework). It is the authoritative Credential Framework for the Legal Entity
- 4 Engagement Context Role vLEI Credential (ECR vLEI Credential). It specifies the purpose, principles,
- 5 policies, and specifications that apply to the use of this Credential in the vLEI Ecosystem.

## 6 2 Terminology

7 All terms in First Letter Capitals are defined in the vLEI Glossary.

## 8 3 Purpose

- 9 The purpose of the ECR vLEI Credential is to enable the simple, safe, secure identification of an ECR
- 10 vLEI Credential Holder to any Verifier that accepts an ECR vLEI Credential.

## 11 4 Scope

- 12 The scope of this Credential Framework is limited to Issuers, Holders, and Verifiers of the ECR vLEI
- 13 Credential.

24

## **5 Principles**

- 15 The following principles guide the development of policies in this Credential Framework. Note that
- they apply in addition to the Core Policies defined in the vLEI Ecosystem Governance Framework.

## 5.1 Binding to Holder

- 18 The ECR vLEI Credential shall be designed to provide a strong enough binding to the ECR vLEI
- 19 Credential Holder that a Proof Request for the ECR vLEI Credential can be satisfied only by the
- 20 Legal Entity vLEI Credential or the ECR Person.

## 21 5.2 Context Independence

- The ECR vLEI Credential shall be designed to fulfil a Proof Request for the legal identity of the
- 23 ECR Person regardless of context, including in-person, online, or over the phone.

## **25** 6 Issuer Policies

26	6.1	Qualific	ations
----	-----	----------	--------

27	The Issuer	MILICT

51

- be a QVI with which a Legal Entity holding a valid Legal Entity vLEI Credential has contracted with for the issuance of ECR vLEI Credentials, offered by QVIs as a valueadded service; or
- be a Legal Entity holding a valid Legal Entity vLEI Credential who will issue ECR vLEI
   Credentials directly to ECR Persons.

#### 6.2 Credential

- 34 The Issuer MUST:
  - use the ECR vLEI Credential schema elements defined in section 9.1.
- 36 2. include the Claims marked as Required in section 9.1.

#### 37 6.3 Legal Entity Identity Verification

#### 38 **6.3.1** For issuance by a QVI:

- Identity Assurance
  - a. A Qualified vLEI Issuer Authorized Representative (QAR) MUST verify that the LEI supplied for the Credential is the LEI of the Legal Entity for which the issuance request for the Credential has been made.
  - b. A QAR MUST verify the Legal Entity Identifier (LEI) of the Legal Entity has a LEI Entity Status of Active and a LEI Registration Status of Issued, Pending Transfer or Pending Archival in the Global LEI System.
- Identity Authentication
  - a. Identity Authentication for the Legal Entity is not applicable for the issuance of an ECR vLEI Credential.

#### 49 **6.3.2** For issuance by a Legal Entity:

- Identity Assurance for the Legal Entity is not applicable for the issuance of an ECR vLEI Credential.
- 52 2. Identity Authentication for the Legal Entity is not applicable for the issuance of an ECR vLEI Credential.

121	2. Preparing	for issuance of an ECR vLEI Credential by a QVI
122	a. Ide	entity Authentication by a QAR
123		
124		i. A QAR and the ECR Person MUST establish a real-time OOBI session in
125		which the QAR and the ECR Person are present. An example is a
126		continuous web meeting attended by all parties on both audio and video.
127		ii. Video filters and avatars MUST not be used during the OOBI session.
128		

130 131 132 133	III.	identity for which the LAR, or third-party service provider, already has performed Identity Assurance. An example: the ECR Person visually presents one or more identity credentials verified during Identity Assurance to the QAR.
134 135 136 137	iv.	A QAR MUST ask the ECR Person verbally to confirm the AID that was sent in the QVI ECR AUTH vLEI Credential. If the AID provided by the ECR Person does not match the AID sent in the QVI ECR AUTH vLEI Credential, the OOBI session ends.
139 140 141 142 143	v. b. The fo	
L44 L45 L46		The QAR MUST use an OOBI protocol (such as a QR code or live chat) to share the QVI AID with the ECR Person.
147 148 149 150	ii.	
151 152 153	iii.	The ECR Person MUST use its Private Key Store to sign and return a response to the Challenge Message, after which the ECR Person MUST acknowledge that this action has been completed.
L54 L55	iv.	The QAR MUST verify in real time that the response to the Challenge Message was received from the ECR Person.
156 157	V.	When the response to the Challenge Message has been received by the QAR, the QAR MUST verify the ECR Person's signature.
L58 L59 L60	6.5.2 For issuance employee	by a QVI for a Legal Entity with a sole authorized signer or
161 162		for authorization of an ECR vLEI Credential by a sole authorized signer or (who is at the same time DAR, LAR and ECR Person)
L63	a. A	credential wallet MUST be set up for the ECR Person.
164 165		nce the ECR Person also is the only LAR, the sole authorized signer or nployee as the LAR MUST issue a QVI ECR AUTH vLEI Credential to the QVI.
L66	2. Preparing	for issuance of an ECR vLEI Credential by a QVI

167 168 169	a.	QAR and the ECR Person MOST establish a real-time OOBI session in which the QAR and the ECR Person are present. An example is a continuous web meeting attended by all parties on both audio and video.		
170	b.	Video filters and avatars MUST not be used during the OOBI session.		
171 172	c.	Passcodes and passwords MUST not be displayed on screen (shared) during the OOBI session.		
173 174 175	d.	A QAR MUST ask the ECR Person verbally to confirm the AID that was sent in the QVI ECR AUTH vLEI Credential. If the AID provided by the ECR Person does not match the AID sent in the QVI ECR AUTH vLEI Credential, the OOBI session ends.		
176 177	e.	If the AID provided by the ECR Person matches the AID sent in the QVI ECR AUTH vLEI Credential, the OOBI session continues.		
178	f.	Identity Assurance		
179 180		<ol> <li>Identity Assurance of the ECR Person who is the sole employee MUST be performed prior to the issuance of an ECR vLEI Credential.</li> </ol>		
181 182 183 184		ii. Identity Assurance of an ECR Person that is a sole employee MUST be performed either by a QAR or through the use of Third-Party Services by the QVI since an ECR Person that is a sole employee is unable to identity assure itself.		
185 186 187 188 189		iii. Identity Assurance MAY be performed by a Third-Party Services for the Identity Assurance of ECR Persons as long as proper security access controls are put in place between the QVI and the third-party provider and the third-party provider follows the requirements of the vLEI Ecosystem Governance Framework.		
190		iv. Identity Assurance MAY be performed either:		
191 192		to at least Identity Assurance Level 2 (IAL2) as defined in NIST 800-63A ( <a href="https://pages.nist.gov/800-63-3/sp800-63a.html">https://pages.nist.gov/800-63-3/sp800-63a.html</a> );		
193 194		By presentation of a valid digital identity credential by the ECR Person from one of the following digital identity schemes:		
195				
196		<u>Europe</u>		
197 198 199		Please refer to the following list schemes with High and/or Substantial Level of Assurance:

269			
270	2.	Identity	y Authentication
271		a.	A credential wallet MUST be set up for the ECR Person.
272 273		b.	A LAR and the ECR Person MUST meet in person or establish a real-time OOBI session in which the LAR and the ECR Person are present. An example is a
274			continuous web meeting attended by all parties on both audio and video.
275		c.	Video filters and avatars MUST not be used during the OOBI session.
276		d.	Passcodes and passwords MUST not be displayed on screen (shared) during the
277		ű.	OOBI session.
278 279		e.	The following steps MUST be performed in this order and completed during this OOBI session.

280 281 282 283 284			i.	The LAR MUST perform manual verification of the ECR Person's legal identity for which the LAR has already performed Identity Assurance. An example: the ECR Person visually presents one or more legal identity credentials and the LAR compares to the credentials verified during Identity Assurance.
285 286			ii.	The LAR MUST use an OOBI protocol (such as a QR code or live chat) to share the Legal Entity AID with the ECR Person.
287 288			iii.	The ECR Person MUST use an OOBI protocol (such as a QR code or live chat) to share its AID with the LAR.
289 290 291 292			iv.	The LAR MUST send a Challenge Message to the ECR Person's AID as defined in the Technical Requirements Part 1 for the purposes of cryptographic authentication of the ECR Person's AID. The Challenge Message MUST be unique to the OOBI session.
293 294 295			v.	The ECR Person MUST use its Private Key Store to sign and return a response to the Challenge Message, after which the ECR Person MUST acknowledge that this action has been completed.
296 297			vi.	The LAR MUST verify in real time that the response to the Challenge Message was received from the ECR Person.
298 299			vii.	When the response to the Challenge Message has been received by the LAR, the LAR MUST verify the ECR Person's signature.
300	6.6	lss	suance	
301			6.6.1 For iss	suance by a QVI:
302 303		1.		y and ECR Person Identity Verification process outlined in sections 6.3 and ompleted before ECR vLEI Credential issuance can begin.
304 305 306 307 308		2.	to be involved i	IST be implemented in the operations of the QVI which requires two QARs in the issuance and signing an ECR vLEI Credential. The first QAR will quired above-mentioned Identity Authentication and out-of-band then signs the credential. Another QAR then approves the issuance and LEI Credential.
309			6.6.2 For iss	suance by a Legal Entity:
310 311		1.		Identity Verification process outlined in section 6.5 MUST be completed I Credential issuance can begin.
312 313		2.		IST be put in place by the Legal Entity for ECR vLEI Role Credentials to meet at for two LARs to sign the ECR vLEI Role Credentials at issuance for Legal

314

Entities with more than one authorized signer or employee.

328

332

335

336

339

343

#### 316 6.7.1 For revocation by a QVI:

- 1. The Legal Entity MUST notify the QVI to revoke an ECR vLEI Credential.
- 2. To revoke a previously issued ECR vLEI Credential, the LAR(s) MUST revoke the QVI ECR AUTH vLEI Credential related to a specific issuance of an ECR vLEI Credential.
  - 3. The QAR then MUST revoke the ECR vLEI Credential.
- 4. The QAR MUST perform the revocation within the timeframe specified in the agreement that has delegated the issuance of ECR vLEI Credentials to one or more QVIs, offered by QVIs as a value-added service.
  - 5. At the end of the Grace Period for the Qualified vLEI Issuer vLEI Credential that has been revoked by GLEIF, the QVI MUST revoke all of the ECR vLEI Credentials that the QVI has issued.
  - 6. Then the terminated QVI MUST transfer a copy of its revocation log to GLEIF.

#### 6.7.2 For revocation by a Legal Entity:

- The Legal Entity SHOULD put in place its own processes specifying how LARs are to be notified
- when ECR vLEI Credentials should be revoked and the timeframe in which the ECR vLEI Credentials
- 331 are to be revoked.

#### 6.8 Level of Assurance

- 333 The ECR vLEI Credential SHOULD be issued with only a single Level of Assurance. Future versions of
- this Credential Framework MAY define multiple Levels of Assurance.

## 7 Holder Policies

#### 7.1 Restrictions

- There are no restrictions on the Holders of vLEI Credentials specified in the vLEI Ecosystem.
- 338 Restrictions may be introduced in other Ecosystems that use the vLEI Ecosystem.

## 7.2 Privacy Considerations

- 340 It is the sole responsibility of Holders as Issuees of an ECR vLEI Credential to present that Credential
- in a privacy-preserving manner using the mechanisms provided in the Authentic Chained Data
- 342 Container (ACDC) specification <a href="https://github.com/trustoverip/tswg-acdc-specification">https://github.com/trustoverip/tswg-acdc-specification</a>

## **8 Verifier Policies**

- There are no restrictions on the Verifiers of vLEI Credentials specified in the vLEI Ecosystem.
- Restrictions may be introduced in other Ecosystems that use the vLEI Ecosystem.

- 1. The ECR vLEI Credential MUST be an Authentic Chained Data Container (ACDC) that MUST use for its schema at the time of issuance, the JSON Schema found in: https://github.com/GLEIF-IT/vLEI-schema/blob/main/legal-entity-engagement-context-rolevLEI-credential.ison
  - 2. The field values in the credential must be as follows:
    - a. The "LEI" field value MUST be the LEI of Legal Entity Holder.
    - b. The "personLegalName" field value MUST be the Legal Name of the Person in the Engagement Context Role at the Legal Entity as it appears in the identity credential provided by the ECR Person for Identity Assurance.
    - c. The "engagementContextRole" field value MUST be the the Engagement Context Role.

Additional data elements can be specified about the ECR Person through issuance of another ACDC credential containing these additional elements by using the chaining capabilities of ACDC credentials to chain this additional ACDC credential to the Legal Entity Engagement Context vLEI Credential.

- 3. For an Issuer that is a QVI, the Sources section of the ECR vLEI Credential MUST contain a source reference to the QVI ECR AUTH vLEI Credential (via SAID) that the issuing QVI received authorizing the issuance of this ECR vLEI Credential. The Sources section of that QVI ECR AUTH vLEI Credential MUST contain a source reference to the Legal Entity vLEI Credential that was issued by the QVI to the Legal Entity and contain the same value for the "LEI" field as the Legal Entity vLEI Credential.
- 4. For an Issuer that is a Legal Entity, the Sources section of the ECR vLEI Credential MUST contain a source reference to the Legal Entity vLEI Credential (via SAID) held by the Legal Entity that is issuing this ECR vLEI Credential. The value of the "LEI" field of the Legal Entity vLEI Credential MUST match the value of the "LEI" field in this ECR vLEI Credential.
  - The elements in this type of credential can be returned in response to a presentation request in a manner that provides for graduated disclosure and contractually protected disclosure as defined in the Issuance and Presentation Exchange (IPEX) protocol section of the ACDC specification.
  - The ACDC specification can be found in:
  - https://github.com/trustoverip/tswg-acdc-specification

Credential-Framework-2024-Annual-Review v1.4 draft.docx

5. Usage of a valid, unexpired, and non-revoked vLEI Credential, as defined in the associated Ecosystem Governance Framework, does not assert that the Legal Entity is trustworthy, honest, reputable in its business dealings, safe to do business with, or compliant with any laws or that an implied or expressly intended purpose will be fulfilled. It is recommended that upon presentation of ECR vLEI Credentials that the credentials are verified. The Legal

Entity is responsible for the use of ECR vLEI credentials that it has authorized or issued and assumes liability for misuse of ECR vLEI Credentials by its representatives

384

385
